## TRANSPORTED SEMEN STALLION SERVICE CONTRACT

Does not guarantee breeding until signed by both parties and returned with booking fee.

This Stallion Service contract is made and entered into by Terry Ready, Stallion Owner and Oakwood Equine Services for the Stallion WHO NEEDS COLOR and hereinafter referred to as "BREEDER", and MARE OWNER/S \_\_\_\_\_

for the purpose of breeding one mare to WHO NEEDS COLOR for the 20\_\_ BREEDING SEASON for the stud fee of \$1,000.00.

Mare \_\_\_\_\_ Reg.# \_\_\_\_\_ Age \_\_\_\_\_

Last Breeding Date \_\_\_\_\_ Foaling Date \_\_\_\_\_ Last Deworming Date \_\_\_\_\_

This service is subject to the following terms and conditions:

- 1) A booking fee of \$250.00 is payable with the return of this contract, and is non-refundable. The Booking Fee is a portion of the full Stud Fee, the balance of which (\$750) will be payable prior to the first shipment of cooled semen.
- 2) A refundable deposit of \$250.00 shall be sent to Oakwood Equine Services prior to the first shipment of semen. Such deposit shall be refunded upon receipt of the AQHA Collection/Insemination Certificate and the Equitainer by Oakwood Equine Services, less any outstanding fees owed Oakwood Equine Services.
- 3) A laboratory fee of \$250.00 shall be sent to Oakwood Equine Services prior to shipment of cooled semen. This is non-refundable, and covers semen collection and shipment preparation for two shipments.
- 4) The Stallion Owner guarantees a live foal for the breeding contract herein. Live Foal is defined as a foal that stands and nurses without assistance. Should the mare prove to not be in foal in the year bred, or should the foal not stand and nurse without assistance, Mare Owner shall notify Stallion Owner in writing within one week of foaling date (or the date Mare proves to not be in foal or loses her foal). Such notice shall be accompanied by a written statement from a licensed veterinarian verifying that the foal is not "live" as defined above or has been lost as defined above. Under the foregoing circumstances and upon receipt of the specified notice and the original Stallion Service Contract, it is agreed that the Stallion Owner shall give to the Mare Owner a return breeding the next year only and to the same Mare originally booked, subject to the same conditions of this contract. If Mare Owner fails to make arrangements for rebreeding the following year, then any and all fees shall not be refundable; the right to rebreed is canceled and the Stallion owners are released from any further obligation whatever.
- 5) The breeding season in force for this contract shall begin January 15 and close July 1st of the year covered by this contract.
- 6) It is further agreed that should the above named mare die during the breeding season, then the Mare Owner

- may substitute another mare to the above named Stallion as agreed to by both the Mare Owner and Breeder.
- 7) In the event the Stallion should die or become unfit for service before the mare is settled, the balance of the Stallion fee, if already paid, shall be refunded. All other incurred expenses shall be due and not refundable.
  - 8) A Breeder's Certificate will be issued only after Mare Owner has notified Stallion Agent by phone or by writing that the Mare has produced a live foal and all bills on the Mare have been paid. If the Mare Owner transfers ownership of the mare before foaling, the Breeder's Certificate will be issued to the new Owner upon such transfer, when all conditions of the contract have been met to date.
  - 9) 18% interest will be charged on all accounts in excess of 30 days.
  - 10) Oakwood Equine Services shall have a possessory lien on Mare and/or Foal for all unpaid bills. Mare Owners shall be responsible for reasonable attorney's fees and court costs if necessary to collect fees due hereunder.
  - 11) This contract is not transferable or assignable.
  - 12) Owner recorded on Mare's registration certificate will be recorded on the Stallion Breeding Report.
  - 13) When the above named Mare Owner signs and returns the booking fee and both copies of the contract for the Breeder to sign, it will then be a binding contract on both parties, subject to the above.
  - 14) As per the rules of AQHA, any semen collected for the purpose of artificial insemination, must be used within 72 hours of collection.
  - 15) As per the rules of AQHA, if cooled semen is to be transported for the purpose of breeding a mare or mares at any place other than the premises of collection, the Stallion Owner and Mare Owner must both complete their respective portions of the collection/insemination certificate which must accompany the shipment of cooled semen to the Mare Owner. The collection/insemination certificate must be completed in part by the Stallion Owner and accompany the semen transported to the Mare Owner or agent.
  - 16) Upon receiving the semen and the collection/insemination certificate from the Stallion Owner, the Mare Owner or lessee of the mare for which semen is received shall complete and sign the certificate, including the date of insemination. This certificate shall be sent in time to be received by the AQHA office within 15 days from the date of insemination. Any subsequent breeding in the same breeding season will require another certificate.
  - 17) Any foal resulting from the use of transported cooled semen must have its pedigree verified by genetic testing, including sire, dam, and foal and/or by other genetic testing as AQHA deems necessary, all expense of which be the registration applicant's.
  - 18) Any foal resulting from the use of transported cooled semen shall not be registered without a transported semen breeder's certificate.
